To Whom it may Concern,

RE: ACLASS PHOTOGRAPHICS

We have been using Aclass Photographics at our school since 2007 for our yearly school photos. The service provided by Andy and his team has always been professional, efficient and friendly.

The team provide a great pre-service allowing us to book our sessions a year in advance, helping with school planning and phoning to confirm the day early in the year as well as sending out the envelopes well in advance to give families plenty of time to make their selections.

Andy always arrives on time - if not early, to set up for the day and goes out of his way to cater for our requirements. We have worked with Andy to come up with a range of options that suit our needs and have received many positive comments from our families about the different way photos are taken here (outside & casual options are given, as well as the standard school uniform shots). The range of class, whole school, group, family and individual photos our families are now able to choose from is just fabulous.

Andy has also been able to incorporate our Play Centre in the day, providing this group with their own set of photos. Being able to work with staff and students (R-7) at our site and with the children and families of our Play Centre (birth - 5yrs) is a credit to him.

Andy provides an extremely quick turn around service with photos generally arriving at our school within a week of being taken, he also takes the time to make contact with us to ensure we were happy with how the day went and the photos themselves.

Our Governing Council also chose to use Aclass Photographics for our Family Photo day which was held earlier this year. Whilst we are a small school and had very limited numbers for this, Andy was prepared to run the day which was most appreciated.

Andy is always prepared to listen to our ideas and help make our school photo day work for us and for our families.

I have no hesitation in recommending Andy and the team at Aclass Photographics to you.
